

C-2 register extract: Turkiye

Jurisdiction	Turkiye
Band	Tier 2
Basis recorded	Elevated-typology exposure per the national risk assessment; FATF status normalised (removed from increased monitoring 2024); registry access adequate for identity, limited for ownership.
Consequence	Heightened document scrutiny; corroboration of the decisive ownership layer for legal persons; SOP-18 corridor rules apply. Tier 2 is not an EDD trigger by itself.
