Raised whenever the customer's declaration, the beneficial-ownership register and registry evidence disagree on any ownership fact. The file may not be approved at any level, and may not be declined below senior-analyst level, while this memo is open. The customer is informed only that review is ongoing.

## 2 · Recalculate ownership structure

Every path, layer by layer, with the arithmetic and one evidence reference per link. The reviewer must be able to reproduce the computation without the analyst.

| NATURAL PERSON | PATH (ENTITY OWNERSHIP STRUCTURE) | COMPUTATION | TOTAL | EVIDENCE PER LINK |
|----------------|-----------------------------------|-------------|-------|-------------------|
|                |                                   |             |       |                   |
|                |                                   |             |       |                   |

6 · Screening state of identified persons

Every person the S4 analysis identifies, whether or not declared. Pending is stated as pending, never assumed clean.
